

# NP-1SG

## Seagull® Compatible Replacement Cartridge

### Contaminants Reduced:

- Chloramine
- Chlorine Taste and Odor
- Cyst
- Mercury
- Sediment, Dirt and Rust
- Lead
- Turbidity
- Giardia
- Cryptosporidium

### Residential / Commercial Filtration Applications

### Standard Features

- Manufactured in USA
- Compatible with the Seagull® IV X-1, X-1F, X-1B, X-1D, and X-1P systems
- Interchangeable with the Seagull® IV RS-1SG (CA), or RS-1SGH filter cartridges
- Eco-friendly coconut shell carbon block media
- Cartridge features a built-in 0.75 gpm flow restrictor
- Sub-micron filter with electrokinetic attraction to reduce harmful heavy metals, as well as microorganisms like giardia and cryptosporidium
- Reduces sediment, dirt and rust particles
- Caps are thermally bonded to the filter, not glued

### Specifications, Operating Parameters and Options

#### Micron Rating (Nominal)

0.5 micron

#### Flow Rate

0.75 gpm

#### Temperature Rating

33°F – 145°F (0.55°C – 62.7°C)\*

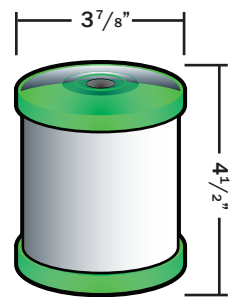

#### Capacity and Change Frequency

1,000 gallons / 6 to 12 months

#### Materials of Construction

Filter Media: Acid rinsed coconut shell carbon block

\*Temperature ratings vary and depend on pressure and time under load
